

ACCELERATED BACHELOR OF SCIENCE IN NURSING

MORE THAN A CAREER - IT'S A CALLING.

You already have an undergraduate degree, but you're thinking of a change that leads to a career in nursing. You're excited to dedicate your time and energy to becoming a nurse as quickly as possible - and we understand!

Capital's nursing program offers two ABSN options: a **traditional daytime track** and a **flexible hybrid track**. You select the option that allows you to balance your education with the demands of a busy life. Our curriculum is also designed to include three masters-level courses. These courses are the core of our Master's of Science in Nursing program and allow you to earn graduate credit while pursuing your degree. These are not only beneficial to your education, but provide a jumpstart for graduate level study.

Students who enroll in Capital's ABSN program will be able to:

- Use critical thinking and judgment to resolve clinical issues and impact change.
- Embrace holistic care in the practice of professional nursing.
- Communicate effectively to collaborate with clients and professional teams.
- Engage cross-culturally in educational and healthcare settings.

65 CREDIT HOURS	SMALL CLASS SIZE	660 CLINICAL HOURS	20 MONTHS TO YOUR BSN
Face-to-face or hybrid format	97.96%* NCLEX PASS RATE *Rate is for second quarter first time test takers
