Connecting Your Macbook to the WiFi

*** If you have connected to the Capital network before, please remove any old profile configurations by going to **System Settings** > **Privacy and Security** > **Profiles**. Click into the Capital profile and click the **minus sign** to remove. Enter your computer password if prompted to confirm the change. Then proceed with steps below. ***

1)
- Click **wireless** icon or enter settings and select **Wi-Fi**
- Click to join **Capital-GetConnected**
  - You will see you are connected to "Capital-GetConnected"
 - It is normal to see "No Internet" or "Unsecured Network"
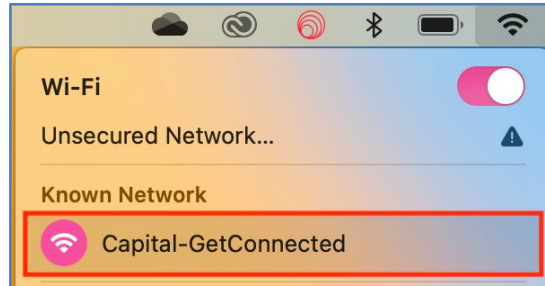

2)
- Open **Safari**
  - NOT Google Chrome or other browser
- Enter **wifi.capital.edu** into the URL bar and hit enter

- If you see "This Connection Is Not Private" page tap **Show Details**
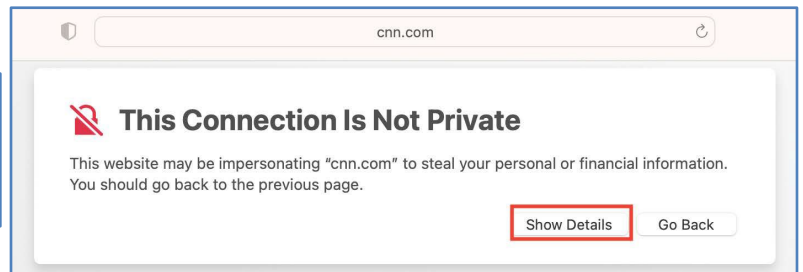

- Click **visit this website**

- Click **Visit Website** to continue
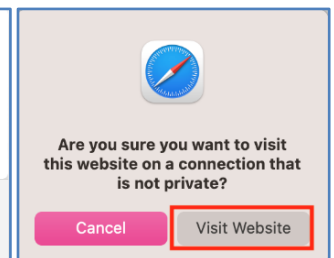

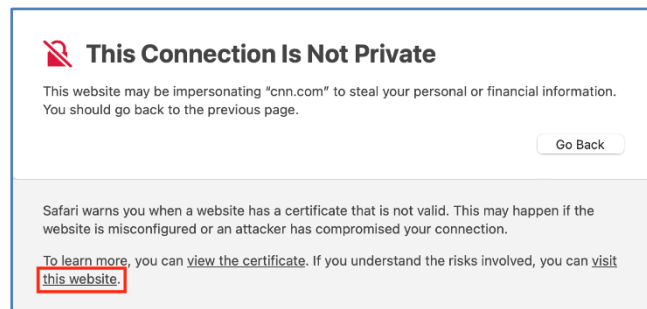

3)
- Enter your Capital **username and password**
  - Username first part of email without @capital.edu
  - Password same as email
- **Check the box** to accept the acceptable use policy
- Click **sign in**

- Select correct network
Students: **Capital-StudentPC**
Faculty/Staff: **Capital-FacStaff**
