240

Please provide any additional information about or descriptions of the supervised clinical experiences:

Our student teaching is a 15-week experience (37.5 hours minimum per week). Students are guaranteed one suburban classroom setting and one urban classroom setting in their 200-level and 300-level field experience courses (one setting for each level) and then students may preference a classroom setting for their 400-level student teaching experience.

Enrollment and Program Completers

THIS PAGE INCLUDES:

>> [Enrollment and Program Completers](#)

In each of the following categories, provide the total number of individuals enrolled in teacher preparation programs for an initial teaching credential and the subset of individuals enrolled who also completed the program during the academic year.

Teachers Prepared

On this page, enter the number of program completers by the subject area in which they were prepared to teach, and by their academic majors. Note that an individual can be counted in more than one academic major and subject area. For example, if an individual is prepared to teach Elementary Education and Mathematics, that individual should be counted in both subject areas. If no individuals were prepared in a particular academic major or subject area, you may leave the cell blank. Please use the "Other" category sparingly, if there is no similar subject area or academic major listed. In these cases, you should use the text box to describe the subject area(s) and/or the academic major(s) counted in the "Other" category.

If your IHE offers both traditional and alternative programs, be sure to enter the program completers in the appropriate reports. For the traditional report, provide only the program completers in traditional programs within the IHE. For the alternative report, provide only the program completers for the alternative programs within the IHE.

After entering the teachers prepared data, save the page using the floating save box at the bottom of the page.

- >> [Teachers Prepared by Academic Major](#)

Teachers Prepared by Subject Area

Please provide the number of teachers prepared by subject area for academic year 2020-21.

For the purposes of this section, number prepared means the number of program completers. "Subject area" refers to the subject area(s) an individual has been prepared to teach. An individual can be counted in more than one subject area. If no individuals were prepared in a particular subject area, please leave that cell blank. ([§205\(b\)\(1\)\(H\)](#))

What are CIP Codes?

No teachers prepared in academic year 2020-21

If your program has no teachers prepared, check the box above and leave the table below blank (or [clear responses already entered](#)).

What are CIP codes? The Classification of Instructional Programs (CIP) provides a taxonomic scheme that supports the accurate tracking and reporting of fields of study and program completions activity. CIP was originally developed by the U.S. Department of Education's National Center for Education Statistics (NCES) in 1980, with revisions occurring in 1985, 1990, and 2000 (<https://nces.ed.gov/ipeds/cipcode/Default.aspx?y=55>).

Teachers Prepared by Academic Major

Please provide the number of teachers prepared by academic major for academic year 2020-21. For the purposes of this section, number prepared means the number of program completers. "Academic major" refers to the actual major(s) declared by the program completer. An individual can be counted in more than one academic major. If no individuals were prepared in a particular academic major, please leave that cell blank. ([§205\(b\)\(1\)\(H\)](#))

Please note that the list of majors includes several "Teacher Education" majors, as well as several noneducation majors. Please use care in entering your majors to ensure education-specific majors and non-education majors are counted correctly. For example, if an individual majored in Chemistry, that individual should be counted in the "Chemistry" academic major category rather than the "Teacher Education–Chemistry" category.

Program Assurances

THIS PAGE INCLUDES:

>> [Program Assurances](#)

Respond to the following assurances. Teacher preparation programs should be prepared to provide documentation and evidence, when requested, to support the following assurances. ([§205\(a\)\(1\)\(A\)\(iii\)](#); [§206\(b\)](#))

Program Assurances

Note: This section is preloaded from the prior year's IPRC.

1. Program preparation responds to the identified needs of the local educational agencies or States where the program completers are likely to teach, based on past hiring and recruitment trends.

- Yes
 No

2. Preparation is closely linked with the needs of schools and the instructional decisions new teachers face in the classroom.

- Yes
 No

3. Prospective special education teachers are prepared in core academic subjects and to instruct in core academic subjects.

- Yes
 No
 Program does not prepare special education teachers

4. Prospective general education teachers are prepared to provide instruction to students with disabilities.

- Yes
 No

5. Prospective general education teachers are prepared to provide instruction to limited English proficient students.

- Yes
 No

6. Prospective general education teachers are prepared to provide instruction to students from low-income families.

- Yes
 No

7. Prospective teachers are prepared to effectively teach in urban and rural schools, as applicable.

- Yes
 No

8. Describe your institution's most successful strategies in meeting the assurances listed above:

Based on information and recommendations from the Capital University Teacher Education Advisory Council, evaluations from clinical experiences, and comments from administrators in the field, the current needs of the local schools and instructional decisions new teachers will face are incorporated into the Teacher Education Program. Each semester we also meet with Human Resource personnel from local school districts who conduct interviews with our students who are completing their program during that academic year. During this time, we also discuss the current and upcoming hiring needs in the local area. All teacher education candidates take a course on working with children with disabilities. Field placements in urban settings provide our candidates with experiences in teaching diverse populations. We continue to offer the Intercultural Student Teaching Program and the accompanying course in Interprofessional Cultural Competence for Human Service Professions. Several courses in our program address the specific needs of limited

English proficient students and children from low-income families. We offer a Masters-level TESOL endorsement program that is open to all post-degree students, however, no TESOL-specific courses are required for undergraduate students.

Annual Goals: Mathematics

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route teacher preparation program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students.

1. Did your program prepare teachers in mathematics in 2020-21?

If no, leave remaining questions for 2020-21 blank (or [clear responses already entered](#)).

- Yes
 No

2. Describe your goal.

To maintain the preparation of teachers in mathematics at 2 candidates.

3. Did your program meet the goal?

- Yes
 No

4. Description of strategies used to achieve goal, if applicable:

Submitted a grant for additional funding to increase the number students to participate in girls in science and math programs.

5. Description of steps to improve performance in meeting goal or lessons learned in meeting goal, if applicable:

6. Provide any additional comments, exceptions and explanations below:

Review Current Year's Goal (2021-22)

7. Is your program preparing teachers in mathematics in 2021-22? If no, leave the next question blank.

- Yes
 No

8. Describe your goal.

We met our 21-22 Mathematics candidate goal. We had 5 AYA and MCE Mathematic candidates complete their program during the 2021-2022 academic year.

Set Next Year's Goal (2022-23)

9. Will your program prepare teachers in mathematics in 2022-23? If no, leave the next question blank.

- Yes

4. Description of strategies used to achieve goal, if applicable:

Implement science workshops and/ or clubs in local urban districts within Columbus City and Whitehall City schools. Increase participation in Girls in Science Day and do a Girls in Science week during the summer. Hosted the 2022 Ohio Junior Science and Humanities Symposium. The Junior Science and Humanities Symposium (JSHS) engages and publicly recognizes students (Grades 9-12) who are conducting research in the field of sciences, technology, engineering, or mathematics (STEM). At the Ohio regional JSHS, individual students compete for scholarships and recognition by presenting the results of their original research efforts before a panel of judges and an audience of their peers. The best projects receive college scholarships jointly sponsored by the United States Departments of the Army, Navy, and Air Force and five will advance to the national JSHS competition held later in the spring of 2022 where students present their research with 300-400 students from the other 47 regional competitions. Additional scholarship and awards are available at each level. The Program Director for the state of Ohio Junior Science and Humanities Symposium is Dr. Carmen Dixon, Assistant Professor of Science Education. Dr. Dixon chaperoned Five 2022 Ohio regional winners to the 2022 National JSHS held April 20-23, 2022 in Albuquerque, New Mexico.

The pass rates table is populated from files provided by the testing company or state. The table provides information on the performance of the students in your teacher preparation program on each teacher credential assessment used by your state. In cases where a student has taken a given assessment more than once, the highest score on that test is used. In the case of a teacher preparation program with fewer than 10 scores reported on any single initial teacher credential assessment during an academic year, the program shall collect and publish information with respect to an average pass rate and scaled score on each state credential assessment taken over a three-year period. [\(§205\(a\)\(1\)\(B\)\)](#)

Please note that this page does not have an edit feature as the pass rates have already been through several rounds of verification. If you identify an error, please contact RTI's Title II Support Center and your testing company representative.

Low-Performing

1. Is your teacher preparation program currently approved or accredited?

- Yes
- No

If yes, please specify the organization(s) that approved or accredited your program:

- State
- CAEP
- AAQEP
- Other specify:

2. Is your teacher preparation program currently under a designation as "low-performing" by the state?

Use of Technology

1. Provide the following information about the use of technology in your teacher preparation program. Please note that choosing 'yes' indicates that your teacher preparation program would be able to provide evidence upon request. ([§205\(a\)\(1\)\(F\)](#))

Does your program prepare teachers to:

- a. integrate technology effectively into curricula and instruction

Yes

No

- b. use technology effectively to collect data to improve teaching and learning

Yes

No

- c. use technology effectively to manage data to improve teaching and learning

Yes

No

- d. use technology effectively to analyze data to improve teaching and learning

Yes

No

2. Provide a description of the evidence that your program uses to show that it prepares teachers to integrate technology effectively into curricula and instruction, and to use technology effectively to collect, manage, and analyze data in order to improve teaching and learning for the purpose of increasing student academic achievement. Include a description of the evidence your program uses to show that it prepares teachers to use the principles of universal design for learning, as applicable. Include planning activities and a timeline if any of the four elements listed above are not currently in place.

The faculty of the Teacher Education program at Capital University recognizes the importance of technology and integrate it into the various curricula for teacher preparation. Students are required to use these as part of their own coursework, but simultaneously learn how to use this in their future practice. The technologies that are a part of pre-service teacher education include math applications such as Maple and Stella along with graphing calculators; classroom equipment such as digital cameras, laptops, clickers, Swivl units, and Smartboards; personal equipment such as cell phones and personal laptops/Netbooks; proprietary software such as Microsoft Office; Capital's course management system (iLearn); online apps and specialized web resources such as Wikispaces and Google docs; and the introduction of Campus Labs by anthology which is an online data management system used by the university for field-related courses. During the Spring 2020 semester faculty and candidates in the school of education starting using video conferencing tools like zoom, Google Hangouts to meet the need to teach and learn virtually during the continued COVID-19 pandemic. For the start of the 2021-2022 academic year, Capital University has partnered with Apple Education, Capital has implemented its Indigo digital platform for next- level student learning and success. All Undergraduates, degree completion students, faculty and staff received iPad and Apple pencils with this digital initiative to promote technology access and affordability, transform instruction and learning. Students use technology to collect, manage, and analyze data in order to improve their own teaching via a What Difference Does Instruction Make (WDDIM) action research assignment in their field placements from their second-year experience to their student teaching. The school of education at Capital collects a wide range of data using Capital University's course management system. This data includes quantitative information such as scores on tests and grades and qualitative information such as actual papers students have written. It also collects information on faculty via surveys in order to provide faculty with information needed to improve their use of

technology in their courses. iLearn, the course management system, offers an excellent way to manage data as far as collecting it. The data can then be transferred into other forms (e.g., spreadsheet, qualitative data analysis) for analysis. Faculty are proficient in data analysis; they are able to scaffold students into a reasonable level of proficiency and they are able to take student data and other sources of data in order to make the teaching process in the department even more effective. End of program survey collected by ODHE demonstrates that our students feel prepared in these areas.

Teacher Training

Provide the following information about your teacher preparation program.

(§205(a)(1)(G))

Note: This section is preloaded from the prior year's IPRC.

Teacher Training

1. Provide a description of the activities that prepare general education teachers to:

a. Teach students with disabilities effectively

All general education students take the required Introduction to Exceptionalities class where they learn about IEPs. General Education students learn about various disabilities, characteristics and intervention strategies for each disability.

b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*.

During Clinical field experiences all general education students have an opportunity to participate in the development of a student's IEP and allowed to attend the IEP meetings.

c. Effectively teach students who are limited English proficient.

In the Foundation of the Education Profession course and Intro to Exceptionalities course students are introduced to SIOP and learn strategies for implementing SIOP principles for students who are English Language Learners (ELLs).

2. Does your program prepare special education teachers?

- Yes
 No

If yes, provide a description of the activities that prepare *special education teachers* to:

a. Teach students with disabilities effectively

The Teacher Education program at Capital University prepares candidates for licensure as Intervention Specialists-mild to moderate disabilities (K-12). The licensure program has been approved by the state of Ohio and the Council for Exceptional Children (CEC) SPA. Through the required courses and field experiences the candidates are prepared to teach students with disabilities.

b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*.

During Clinical field experiences all students participate in the development of a student's IEP and attend the IEP meetings.

c. Effectively teach students who are limited English proficient.
