CAREER DEVELOPMENT: 2020-21

This report provides a review of aggregate and specific employment data, as well as advanced degree information, for our 2020-2021 graduates. (For a review of Career Development activity and assessment information, see our corresponding Annual Report). The information is based on follow-up contacts from May to December through survey, email, telephone, and texting, as well as information obtained through faculty and staff. We reached 99% of our graduates, but obtained post-graduation information for 81%.

This included:

- Communicating by email with all graduates who expressed need for job search assistance
- Contacting graduates who indicated that they were seeking employment, but did not specifically request assistance
- Contacting graduates who provided no post-graduation employment or graduate school information

BLANK ROWS IN MAJOR REPORTS

Many of the rows for some majors are missing information. Career Development was either unable to contact those graduates, or the graduates did not respond to our emails, texts, and telephone calls.
